CNC Power Engineering Always on the move

CNC and Drives Training catalogue 2023

www.num.com

Who has the best expertise in your area of business?

The answer is obvious and quite simple: **you are the expert in your field**. Similarly, no one other than NUM could claim to have the deepest expertise of our extended range of drives and CNCs. After all, this has been our business for fifty years. This is why **we** are your number one partner for the training of your teams.

Whether you are an end-user, an OEM, a maintenance specialist or a system builder; NUM has a large variety of all kinds of training sessions in its catalog dedicated to your applications and for all generations of NUM products that are running production on machines today.

Of course, each customer has their own requirements, and each machine and each application has its own special features; and that is why we can also offer customized training sessions that are tailored to focus on your particular and individual needs.

As a provider of CNC High End Applications, we have organized our training sessions by features and level of knowledge required, in order to help you acquire all the information you need to be successful. These sessions are conducted by training specialists and application engineers so you can be assured that you are receiving the most accurate and helpful answers, whatever your question or concern might be. Give us a chance to help you be successful and develop a cooperative relationship between our companies for the benefit of all.

Training with NUM: your advantages

- All technical data and information is up to date
- If you need to learn about a specific function, you will get in depth information
- Partnership development
- You will be in touch with the experts in every domain of NUM activity
- Whatever your area of expertise might be (Maintenance, Service, Programming, Setup...), you will find the courses you need
- Full range of products and software in one location

Training Centers

All NUM technical centers are equipped to provide training. These sessions will take place either in our premises or in your facility.

Some training facilities

Training Courses

The different training modules are linked in a way to provide a logical path for mastering our application solutions in your area of expertise.

Course Descriptions

Your area of interest

General knowledge

Objectives

Flexium system description

- Understanding the Flexium range structure (CNCs and Drives)
- ✓ Understanding the main functions
- Ability to define a configuration with the Flexium catalogue

Training Content

Flexium CNC presentation

- o The different models of CNCs
- Hardware structure Software functions

The panels

- PC Panels
- o Machine panels

The PLC

- \circ Structure
- Programming languages
- o IOs

NUMDrive C presentation

- o Hardware structure
- Drives functions and performances
- Axes and spindle motors

Duration

1 day

• Hardware structure

NUMDrive X presentation

- o Drives functions and performances
- o Axes and spindle motors

Tools

- PLC programming
- \circ Web tools

Applications

 From the single unit CNC to the multi CNC multi panels configurations

Questions and answers (1/2 hour)

Date / Costs

Please consult your local training contact

9

FXTR 101

Training materials

- Individual components
- o Simulator

Supports

None

Deliveries

• Course presentation (printed and .pdf on CD)

Prerequisite or Equivalent Knowledge

• Flexium catalogue (on CD)

Flexium and Safety

Your area of interest

Prerequisite or Equivalent Knowledge

General knowledge

Objectives

- Understanding the Flexium and Flexium⁺ safety concepts
- ✓ Understanding the various safety features
- Ability to define the components and development required for a particular configuration

Supports

FXTR101

- Training materials
- o Individual components
- o Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Flexium catalogue (on CD)

Training Content

Safety: What is it?

- Safety PLCs
- o Safe motions
- o Safety level

General on EtherCAT and FSoE

The Safe PLC

- o Structure
- Programming languages
- o I/Os

Duration

1 day

Safety and Motions

- SAM, STO and NUMDrive C
- o SAMX, STOX and NUMDrive X

Questions and answers (1/2 hour)

Date / Costs

Operation and Diagnostics

Your area of interest

Machine operator – 1st level maintenance

Objectives

- Ability to run a machine equipped with Flexium system
- Understanding and adjusting the coordinate systems and tools offsets
- Understanding operators message and status indicators to perform a first level maintenance

Training Content

Operation

- Using the HMI
- Modes of operation
- ISO concepts (interpolation feedrate tools offsets main canned cycles)
- Coordinate systems programmable axes
- Work preparation, tools offsets, origin presets
- Basic of parametric programming

Maintenance

- o Status indicators
- Operators messages
- LED indications
- Backup of essential data
- Adding a system option

Duration

2.5 days

Prerequisite or Equivalent Knowledge

FXTR101 or equivalent

Supports

- Training materials
- o Individual components
- Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Programming manual (CD)
- Tools
- o Web tools
- o Flexium license loader

Questions and answers (2 hours)

Date / Costs

Advanced part programming

12

Your area of interest

Advanced part programming – custom macros – special functions for OEM

Objectives

- Mastering the advanced ISO functions of the system
- Ability to create a custom macro (tool changer – milling head exchange – probing etc.)

Prerequisite or Equivalent Knowledge

FXTR201

Supports

Training materials

- o Individual components
- o Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Programming and advanced programming manual (CD)

Training Content

Advanced ISO functions

- Polar programming
- Probing management
- Pocket cycles
- Complements on parametric programming
 - Detailed information on E parameters
 - Relation with the outside via the PLC
- o Structured programming
- o Dynamic operators
- Customized G codes

Exercises

Questions and answers

Duration

2.5 days

Date / Costs

Flexium 3D

Your area of interest

Prerequisite or Equivalent Knowledge

Machine operation - Programming

Objectives

- ✓ Using Flexium 3D to validate a part program
- Interacting with Flexium HMI to correct possible programming faults
- ✓ Optional : Customizing Flexium 3D for machine simulation

Supports

FXTR202

Training materials

o Simulator

Deliveries

Course presentation (printed and .pdf on CD)

Training Content

Flexium 3D presentation

- Principle of operation
- The different screens

Running Flexium 3D

- Program configuration
- o Defining the blank and the tools
- Off line and On line simulation

Exercises

Optional

• Designing a machine model

Questions and answers (2 hours)

Duration

1 day + 1 day optional

Date / Costs

Dynamic operators in C

EXTR 223

Your area of interest

General knowledge

Objectives

 Develop an application using dynamic operators in C

Prerequisite or Equivalent Knowledge

FXTR202 and programming C language

Supports

- Training materials
- o Individual components
- o Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Flexium catalogue (on CD)

Training Content

- Principle of dynamic operators
- Short example using classic dynamic operators
- o Review list of parameters
- The compiler
- o Examples
- o Trace and debug

Duration

1 day

Date / Costs

High Speed Cutting – 5 axes functions

Your area of interest

Prerequisite or Equivalent Knowledge

General knowledge	FXTR202 or FPTR 401			
Objectives	Supports			
✓ Mastering 5 axes machining functions	Training materials o Individual components			
 RTCP (Rotating Tool Centre Point) 	 Simulator 			
✓ Inclined plane	Deliveries			
✓ High speed cutting	 Course presentation (printed and .pdf on CD) Flexium catalogue (on CD) 			
Training Content				
 NC 5 axes functions 	 Axes adjustments 			
 RTCP and inclined plane parameterization 	 Flexium tools instruments 			
• Application	 Practical case 			
 High speed machining functions 	Questions and answers (1/2 hours)			
 Speed and acceleration controls 	Questions and answers (1/2 hour)			
 Optimization of parameters 				
Duration	Date / Costs			
2 days	Please consult your local training contact			

Flexium system maintenance with Flexium Tools

Your area of interest

Maintenance

Objectives

 Ability to detect and replace defective components in a short time

✓ Predictive maintenance

Prerequisite or Equivalent Knowledge

FXTR102

Supports

Training materials

Simulator

Deliveries

Course presentation (printed and .pdf on CD)

Training Content

Flexium system maintenance

- o System structure
- Components
- o System startup
- Diagnostics
- o Software updates
- o Service tool
- o Safety
- o Backup and Restore procedures
- o Part replacement

Drives maintenance

- Product knowledge
- Drives exchange procedure

Questions and answers (1 hour)

Duration

2.5 days

Date / Costs

Flexium system maintenance without Flexium Tools

Your area of interest

Maintenance

Objectives

✓ Ability to detect and replace defective components in a short time

✓ Predictive maintenance

Prerequisite or Equivalent Knowledge

FXTR102

Supports

Training materials

Simulator

Deliveries

Course presentation (printed and .pdf on CD)

Training Content

Flexium system maintenance

- o System structure
- o Components
- o System startup
- Diagnostics
- o Software updates
- o Service tool
- o Safety
- o Backup and Restore procedures
- o Part replacement

Drives maintenance

- o Product knowledge
- Drives exchange procedure

NUMDrive X advanced maintenance

Your area of interest

Machine maintenance

Objectives

 Ability to detect and replace components or adjust parameters

Prerequisite or Equivalent Knowledge

FXTR301

Supports

Training materials

Simulator

Deliveries

Course presentation (printed and .pdf on CD)

Training Content

Review

- Range description
- Troubleshooting with Flexium HMI

Components connections

o Structure of a NUMDrive X application

Adjustments

- Using Flexium Tools for diagnostic
- Main drive parameters
- o Adjustment and control

Questions and answers

Duration

2.5 days

Date / Costs

Flexium⁺ system initial setup

Your area of interest

Engineering and Setup

Objectives

- Create a first Flexium application for a machine
- Control basic functions Run two axes and a spindle

Prerequisite or Equivalent Knowledge

FXTR201

Supports

Training materials

o Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Installation manual Commissioning manual – Flexium Tools (all on CD)

Training Content

Understanding Flexium⁺ structure

Flexium Tools presentation

- o Getting familiar with the package
- o Languages
- o Variables
- o Structure of a project

Practical exercise

- Creating the machine structure
- Integrating IOs (CANopen and Ethernet)
- o Integrating a panel
- Handling modes, manual and automatic commands
- Operator messages
- o Power on, security
- o Integrating axes and spindle
- First level of parameterization
- o Running a simple part program
- o Introduction to the custom visualization

Duration

5 days

Questions and answers

Date / Costs

Flexium⁺ system advanced setup

FPTR 402

Yc	our	area	of	interest

Engineering and Setup

Objectives

 Commissioning a Flexium system on any kind of machine

Prerequisite or Equivalent Knowledge

FPTR 401

Supports

Training materials

Questions and answers

• Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Full set of Flexium manuals Flexium Tools
 Example project (all on CD)

Training Content

Detailed analysis of exchange variables

Flexium Tools complements

- o Project simulation and debug
- Application control (Tasks automated checks)
- o Field bus control
- Advanced functions (Probing tool wear shutdown etc.)
- Custom screens complements
- Optional functions (multi NCK multi panels etc.)
- Writing custom libraries

Duration

5 days

Date / Costs

Extended NCK Access (ENA)

23

Your area of interest

Engineering and Setup

Objectives

 Exchange of additional data between NCK and PLC

Prerequisite or Equivalent Knowledge

FPTR402

Supports

Training materials

• Simulator

Deliveries

- Course presentation (printed and .pdf on CD)
- Flexium Tools Example project

Training Content

Structure of internal communication in Flexium systems

ENA library

o Available parameters and functions

Application

- Reading parameters
- Writing parameters
- Files management

Questions and answers
